

## Launch of the “Global SDG Accountability Report”: A Snapshot on Accountability for the 2030 Agenda

Thursday, 24 June 2021

9:00 – 10:00 ET

13:00 – 14:00 GMT

*A report drafted and presented by the Campaign for a Decade of Accountability for the SDGs*

On behalf of the [Campaign for a Decade of Accountability for the SDGs](#), we are thrilled to launch the first-of-its-kind “*Global SDG Accountability Report*” through this Virtual Webinar.

This virtual event will detail the extensive content of the *Global SDG Accountability Report*, and will feature insights and reflections from a wide range of experts from across stakeholders invested in advancing accountability for the 2030 Agenda. The webinar will also feature dynamic interactive engagement which will solicit perspectives from all participants, which will feed into future work of the campaign going forward.

### About the Global SDG Accountability Report

The *Global SDG Accountability Report* is a comprehensive resource that details the current state of accountability (or lack thereof) for the 2030 Agenda at subnational, national, and international levels. In addition to providing an analysis of where SDG accountability current stands, this report builds on collective reflections and inputs from the “*Global SDG Accountability Survey*” launched by the Campaign in 2020. Building on this analysis, the *Global SDG Accountability Report* also features concrete recommendations for advancing accountability for the 2030 Agenda, to foster a “Decade of Accountability for the SDGs,” that complements the “Decade of Action” called for by governments in 2019.

Register for the Launch Webinar here: <http://bit.ly/GlobalAccountability>

### Programme:

**Moderator:** Ms. Arelys Bellorini, World Vision

- I. **Detailing the Global SDG Accountability Report**
  - John Romano, Transparency, Accountability & Participation (TAP) Network

  - Ivana Bjelic Vucinic, Global Forum for Media Development (GFMD)
  - Saionara König-Reis, Danish Institute for Human Rights
  - Adam Gordon, Global Compact USA
- III. **Interactive Session, featuring engagement via Mentimeter**

## About the Campaign for a Decade of Accountability for the SDGs

Launched in 2020 under the leadership of the TAP Network, [The Campaign for a Decade of Accountability for the SDGs](#) is a multi-stakeholder partnership that mobilizes accountability actors from a wide range of sectors to support accountability for the 2030 Agenda and the SDGs. The Campaign aims to bolster concerted action and amplify efforts to hold duty-bearers to account for their commitments to sustainable development in a coordinated manner. To do this, the Campaign engages a wide range of stakeholder communities – all of whom comprise a critical piece of the accountability puzzle for the SDGs. The Campaign is complementary to the “Decade of Action and Delivery” agreed upon by governments at the 2019 SDGs Summit, and is intended to ensure that governments live up to their commitments to advance the 2030 Agenda at all levels.

Reflecting the multi-stakeholder nature of SDG accountability, the Campaign brings together diverse partners mobilizing broad networks of various stakeholder groups, including civil society, the private sector, academia, the media, National Human Rights Institutions, and philanthropy.

### Partners

**Supported by:** Transparency, Accountability & Participation (TAP) Network, Forus, Global Call to Action Against Poverty (GCAP), Together 2030, Action Aid, AfroLeadership, CIVICUS, the Danish Institute for Human Rights, Global Forum for Media Development (GFMD), Parliamentarians for the Global Goals, Sustainable Development Solutions Network (SDSN), UN Global Compact, UN SDG Action Campaign, VSO International, the WINGS Network/SDG Philanthropy Platform, and World Vision
