

SDG16+: a United Framework to Build Forward Better

Global SDG16+ Coalition side event at HLPF 2021
Wednesday, July 14 8:00 AM - 9:00 AM EDT

The event will call on the global community to make SDG16+ the foundation for reset and recovery efforts, and for building more resilient societies and institutions going forward. Given the centrality of action on SDG16+ for sustainable and resilient recovery from the pandemic, the session aims to galvanize political will and forward-looking, multi-stakeholder commitments to accelerate SDG16+ implementation and highlight the importance of SDG16+, its interlinkages to all SDGs and to human rights, and its role as an enabler of the entire 2030 Agenda. Local examples for safeguarding peace, justice and inclusion will be showcased.
