About

The TAP Network Steering Committee is an openly elected leadership structure of the TAP Network, comprised of key TAP Network Partner organizations. The Steering Committee is expected to lead the network on behalf of the membership and provide strategic guidance for the network's work and will be expected to be accountable to the membership, and transparent in its leadership and oversight of the network's affairs.

You can find out more about the current 2019-2020 TAP Network Steering Committee Members [on our website here](#).

NOW OPEN: Nomination Requirements for Organizations (Open to TAP Partners ONLY)

Any organization that is a current TAP Network "Partner" is eligible to self-nominate their organization and vote in election for the TAP Steering Committee. Since Steering Committee nominations are only open to TAP Network Partners, **any organizations that are currently only "Members" and not "Partners", will need to apply to become a TAP Network Partner before application cut-off of (EXTENDED DEADLINE) Monday, 15 November 2021 to be eligible to nominate for the Steering Committee**. Unfortunately, any organization that applies to become a TAP Network Partner after this cut-off date will be ineligible to nominate for the Steering Committee.

You can find more information about [becoming a TAP Network Partner here](#), along with a ["How-to" guide on your application attached here](#), and you can submit your application here: <https://www.surveymonkey.com/r/become-TAP-partner>

this capacity for a full two year term. All information you need to know about the Steering Committee's work and the nomination and election processes are all outlined in detail in these documents, so if your organization is interested in putting forward for the TAP Steering Committee, it is critically important for you to read these important background documents.

Composition of the 2022-2023 Steering Committee:

- The TAP Network Steering Committee will be comprised of **SIX total organizations** – three organizations from the Global South, and three organizations from the Global North.
- The current TAP Network Steering Committee has identified two current members to serve as “institutional memory” organizations, as mandated by the Steering Committee Terms of Reference. The organizations that will carry over to the 2022-2023 Steering Committee are Accountability Lab (Global South) and CSPPS (Global North).
- Therefore, **there will be two Steering Committee slots open from the Global South and two slots open from the Global North (4 total) for these upcoming elections**
- Please note that, as always, it is ORGANIZATIONS/INSTITUTIONS that are represented on the TAP Network Steering Committee and NOT INDIVIDUALS. While individuals will represent their institutions on the Steering Committee, this is a very important distinction to clarify, to ensure that your institution has buy-in into the work of the TAP Steering Committee. Consequently, all nominating organizations must provide the name and contact details for a primary AND an alternate representative to the TAP Steering Committee at the time of nomination, on the nomination form.
